

### Principal/Evaluator Responsibilities:

- Know and understand the North Carolina Professional Teaching Standards.
- Participate in training to understand and implement the Teacher Evaluation Process.
- Supervise the Teacher Evaluation Process and ensure that all steps are conducted according to the approved process.
- Identify the teacher's strengths and areas for improvement and make recommendations for improving performance.
- Ensure that the contents of the Teacher Summary Evaluation Report contain accurate information and accurately reflect the teacher's performance.
- Develop and supervise implementation of action plans as appropriate.

## North Carolina Professional Teaching Standards

The North Carolina State Board of Education charged the North Carolina Professional Teaching Standards Commission to align the Core Standards for the Teaching Profession (1997) with the newly adopted mission. To this end, Commission members, 16 practicing educators from across the state, considered what teachers need to know and be able to do in 21<sup>st</sup> century schools. **This document contains the aligned standards adopted by the North Carolina State Board of Education in June 2007.**

Why are these Standards important to you? The North Carolina Professional Teaching Standards are the basis for teacher preparation, teacher evaluation, and professional development. Colleges and universities are changing their programs; a new teacher evaluation instrument is being created; and professional development is taking on a new look based on these Standards. Each of these will include the skills and knowledge needed for the 21<sup>st</sup> century teaching and learning. The document is provided in this format so that it may be kept in a plan book to guide instruction as we move forward in the 21<sup>st</sup> century.

### A New Vision of Teaching

The different demands on 21<sup>st</sup> century education dictate new roles for teachers in their classrooms and schools. The following defines what teachers need to know and do to teach students in the 21<sup>st</sup> century:

- Leadership among the staff and with the administration is shared in order to bring consensus and common, shared ownership of the vision and purpose of work of the school. Teachers are valued for the contributions they make to their classroom and the school.
- Teachers make the content they teach engaging, relevant, and meaningful to students' lives.
- Teachers can no longer cover material; they, along with their students, uncover solutions. They teach existing core content that is revised to include skills like critical thinking, problem solving, and information and communications technology (ICT) literacy.
- In their classrooms, teachers facilitate instruction encouraging all students to use 21<sup>st</sup> century skills so they discover how to learn, innovate, collaborate, and communicate their ideas.
- The 21<sup>st</sup> century content (global awareness, civic literacy, financial literacy, and health awareness) is included in the core content areas.
- Subjects and related projects are integrated among disciplines and involve relationships with the home and community.
- Teachers are reflective about their practice and include assessments that are authentic and structured and demonstrate student understanding.
- Teachers demonstrate the value of lifelong learning and encourage their students to learn and grow.
